Result positive ..... negative \*  
(\*)Cross out where not applicable

.....  
place and day of test

.....  
stamp and signature of authorised person

### Guidance for COVID-19 positive persons (including those living in the same household):

For the period of 14 days after receiving positive test result, the person shall observe:

- Isolation at home or other appropriate accommodation, social distancing and avoiding any kind of visits in the isolation facility.
- Ban on meeting persons other than those living in the same household, travel ban.
- All persons sharing the same household with the COVID-19 positive person must remain in quarantine. In case you have not been tested for COVID-19 by your general practitioner (in case of a child by pediatrician), there is an obligation to inform him by phone, via email or text message. Observation of COVID-19 symptoms on daily basis (at least one of the following symptoms: cough, shortness of breath, fever, loss of taste or loss of smell). Measuring and registering of body temperature on daily basis.
- Strict hand hygiene and wearing face masks (covering the nose and mouth).
- All the measures specified at <https://korona.gov.sk/> section “What do I have to do when I am Covid-19 positive” and “What do I have to do when I have been in close contact with Covid-19 positive person”.

If any of the above mentioned symptoms appear (cough, sore throat, shortness of breath, fever) it is necessary to contact your general practitioner or competent regional public health authority by phone and follow their instructions.
